

MISHAWAKA

BIG SCOTCH PICNIC IS GREAT SUCCESS

Automobiles Convey Happy Highlanders to Eagle Lake Resort—Scotch Piper Band in Full Costume Features.

To the Scotch Thistle club of Mishawaka belongs the credit of setting a new record in the line of entertainment. Its first annual picnic and games held Thursday at Eagle Lake made history for the recently formed society. There wasn't a feature on the day's program that did not carry with it enjoyment, zest, fun, frolic and enthusiasm. A pleasing feature of it all was that the ladies and children were given every attention and pleasure. Their wants were attended to first, and they entered into the spirit of the occasion with all possible grace and good humor.

Over a hundred members of the society and their friends—to be exact there were 108 in the party—began to gather in front of the Hotel Mishawaka as early as 8 o'clock Thursday morning. When the automobile committee, under the energetic leadership of Charles Ostrom, watched the crowd grow they were seized with apprehension, and when the 108 mark was reached and only sufficient cars to take the parade around to accommodate about 70, a hurried scramble around the city was made, and within a short time there were cars to spare.

Previous to starting for the picnic grounds the band of pipers and drummers gave a selection, and the signal to start was given. The party got a splendid send-off from the many Mishawakans on the streets, and cheers were given at various places throughout the city.

On arrival at the lake no time was lost by the committee on grounds and sports, and in less than half an hour the first event was pulled off. There were 17 items on the program, all of which were keenly contested.

Perhaps the most interesting and novel features of the day were the Scotch dancing and piping. The entrants were from Chicago and Mishawaka. Where each of the Highlanders did so well it would seem invidious to mention names, but some of the old Scots from South Bend, Mishawaka and other places gave it with their opinion and the Highlanders were such dancing or heard such pipe music as rendered by Sandy McIntosh of Mishawaka and N. F. Dewar and Douglas Merry of Chicago.

The judges of the dancing and piping were Mrs. Mary Watt and James MacGregor of South Bend and J. C. Hill and W. E. Wallach of Mishawaka. One of the features of the day was the fat men's race. Ed. W. Forstbauer had had a race with a heavy body about half way home and the earth trembled. D. M. McKindley was coming close behind him and not looking where he was going fell over the former's apparently lifeless body. The earth again shook. In the meantime Duncan Campbell and "Pop" Hill, perspiring and evidently in pain, were making for the tape. They were running the race of their lives—running at such a rate of speed that notwithstanding their avoirdupois, their symmetrical forms were scarcely visible. "Pop" won just by a hair, the kind he doesn't wear on his cranium.

The judges in the athletic events were Messrs. Duncan, Campbell, Judge R. S. Feig, Fred Frueh, F. A. Vogt and Pete Lehman.

The dinner was simply immense, and much praise was accorded "mine host" Forstbauer for his efforts.

W. A. Merry, secretary of the Caledonian society of Chicago, was the guest of the Mishawaka Scots during the day and passed out some encomiums to the club for the way in which they conducted their first picnic.

Dr. H. J. Graham acted as umpire of the baseball game between the married and single men. The doctor had a revolver in his hand during the game in case of emergency. The contest was won by the single men, the score being 8 to 3.

MYSTERIOUS CAVE IS DISCOVERED AT DAM

An old sunken cave or dugout about 100 feet from the Hen Island dam, is attracting considerable notice by persons traveling along the St. Joseph river.

The cave was discovered about a week ago and since summer visitors at cottages along the river have been digging about the place in an endeavor to make an entrance to the hole. It will be remembered by many when, about four years ago, efforts were made by city officials to gain entrance to the cave. Efforts were given up at that time owing to the great amount of work necessary to remove a heavy stone stairway at the dugout. This year it was discovered that the stairway had sunk several feet and with a little work the adventurers will be able to explore the inside of the mysterious hole.

TO BEGIN MANUFACTURE OF TOOLS WITHIN WEEK

The Amplex company is making ready its plans to commence the manufacture of the 5,000 motors for the Continental company of Chicago.

Expert tool makers are being advertised for as a preliminary, and within the next few days the large order will be in course of manufacture. The fact of such a big contract being awarded to the Amplex company has already given an impetus to realty matters on the east side, and several inquiries for lots have been received.

MANY ATTEND RACES.
Several hundred Mishawaka people Thursday afternoon attended the big auto races and aviation exhibition at Driving park, Elkhart, Ind. It was estimated that fully 40 machines filled with local people, were present at the meet which drew a large crowd. The race attracted considerable attention in Mishawaka, as Barney Oldfield, who, for several years, held the record for a mile track, would be racing against one of the Mishawaka man who took the honors at a meet in the same park several years ago. The car driven by the Mishawaka man was built at the Amplex Manufacturing company in the city and proved the worth of a Mishawaka product in going out and capturing a record.

INTERESTING SUBJECT.
"Paul's Third Missionary Journey" was the topic at the Thursday evening prayer services at the First Christian church, Harry Sherry, Fred Clausen and Asa Snyder gave laymen's addresses. A vocal selection, was rendered by Chas. Van Winkle. Following the meeting the board of deacons of the church held a meeting. Important business was transacted and the meeting was well attended.

The improvement to the church of a new stair entrance at the front of the edifice is nearly completed. The work has been under way for about two weeks.

BIRDS RETURN.
Two out of the 11 birds sent last Friday to New Orleans by members of the St. Joseph Valley Pigeon club, returned Thursday. One of the birds was the property of Adolph Clay's and was the first bird reported in. The second bird belonged to Geo. Clarkson of W. Sixth st. None of the birds from the loft at Central fire station have yet returned. The long delay of the birds in reaching home was accounted for by the severe storms encountered throughout the south.

AUTO AND BUGGY COLLIDE.
A machine driving west on Lincoln highway at Osceola late Thursday evening struck a single buggy. No one was injured in the party, although the buggy was completely demolished in the collision. After stopping to ascertain the injuries of the party in the buggy the autoists drove on. It is claimed that they were driving without a light. The police were notified to be on the lookout for the auto party.

TO RECEIVE SOUVENIRS.
Every lady attending the Century theater tonight will be presented with a handsome souvenir.

ANOTHER BIRD RETURNS.
One more bird of the 11 sent to New Orleans last week to participate in the 1,000-mile race returned Friday morning to the loft of John Schmitt of Lincoln; highway west. This makes three birds that have returned.

DODGE CLUB PURCHASES NEW LANTERN FOR WORK

The silver jubilee of the Dodge Relief association on Friday night will be made the occasion of a test of a new type of combined balopticon and opaque projector sent here for demonstration purposes by the manufacturers.

One of the interesting features which will be shown is a set of 60 slides made in natural colors by color photography embracing a few views taken in Mishawaka covering residences, Dodge product and several views.

The club rooms have just been overhauled by the Dodge Mfg. Co. and two of the former rooms converted into one assembly room capable of seating 150 people.

The proposed by-laws will be thoroughly explained to all the employees by W. L. Chandler, who supervised their compilation and the members of the association will then discuss them and if satisfactory, will adopt or amend them.

Membership will probably be opened to all employees of the National Veneer Products Co., a subsidiary company, who will then be given the benefits of this organization which is celebrating its quarter century of existence.

Mr. Chandler, as president, has called a special meeting of the Dodge club and Dodge Mutual Relief association to consider the merging of the two organizations. The new plan will be explained at this meeting. The company will provide an entertainment and refreshments.
